### Why You Need to Make the Time to Attend

As a business owner, it's more critical than ever that you are equipped with the tools and expertise to make the right decisions. Why would you risk all the time, effort and resources you've devoted to your business in the hope that you will never be sued? Why would you continue to write blank checks to the IRS when you could be putting that money to work for you?

As a business owner you must look beyond the day-to-day. Your success lies with your understanding of how to leverage your business for maximum growth and it all starts with a solid asset protection plan.

You have the right to gain the knowledge you need to protect what you have, and to use the tax code to your benefit. There are the same strategies we've been teaching to CPAs and attorneys for 15 years.

**At the Asset Protection and Tax Reduction Seminar you will finally gain the information you need to be an advocate for your business.**

### 100% MONEY-BACK GUARANTEE

Running a small business is risky; this offer isn't. We are so confident you'll benefit from this workshop, we are offering a 100% money-back guarantee. If, by noon on the first day, you feel the information being presented isn't valuable to you, we will refund the price you paid for attendance, no questions asked.

Small business owners are often at a disadvantage because they lack the time, resources and expertise available to larger companies. Their focus is on the day to day operation and not the development of an asset protection plan.

## **As a Small Business Owner you Deserve to Have the Same Knowledge and the Strategic Know-How That Have Protected the Wealthy for Decades**
